Description of the Series/Product Category

Notice: The following information refer to the series/product category as a whole. Please see the specific datasheet for specific technical information of a particular product.

For secure and steady termination on-site, Telegärtner offers a wide assortment of auxiliary means and tools. For terminating a FO connector it is necessary to have tools for preparing the fibers, a crimp tool, polishing materials and a microscope for checking the connector end face. Supplementary sets are available for the termination of POF and LC connectors.
